

STATEMENT OF AUTHENTICITY

This document represents GIA's professional opinion, supported by the techniques and instrumentation available at the time of examination, that the diamond described in this report is a natural diamond and not a simulant or laboratory grown. This document also describes the quality characteristics of the diamond based on the GIA 4Cs and the GIA International Diamond Grading System™, and discloses any treatments discovered during GIA's analysis.

WHAT IS A GIA REPORT?

A GIA report represents a technologically advanced diamond and gemstone evaluation. It provides a blueprint of your gemstone's attributes and a tangible record of its quality.

The Gemological Institute of America is internationally recognized as the leader in gem education, research and laboratory services. Committed to protecting all purchasers of gemstones and jewelry, the Institute developed the International Diamond Grading System™ and the 4Cs of diamond quality, and continues to set the standard for grading and identification practices used all over the world.

As the world's pre-eminent gemological laboratory and research center, GIA is often the first to examine new gem materials entering the marketplace. It is also a leader in the discovery of new methods to detect and identify the latest simulants, treatments and synthetics. These discoveries translate into expert gemological services and underlie the accuracy and precision of your GIA report.

GIA's assessment of your gemstone is objective and unbiased. GIA does not sell gemstones nor is it affiliated with any industry group or commercial enterprise. In addition to adhering to stringent grading and identification standards, the Institute operates under a strict code of ethics designed to protect its independence and to ensure the integrity of every report it issues.

GIA NATURAL DIAMOND GRADING REPORT

November 14, 2019

GIA Report Number 6204737432

Shape and Cutting Style Round Brilliant

Measurements 9.36 - 9.47 x 5.90 mm

GRADING RESULTS

Carat Weight 3.23 carat

Color Grade L

Clarity Grade I1

Cut Grade Very Good

ADDITIONAL GRADING INFORMATION

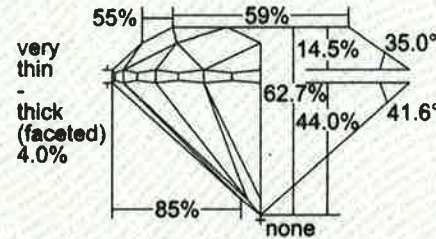

Polish Good

Symmetry Very Good

Fluorescence None

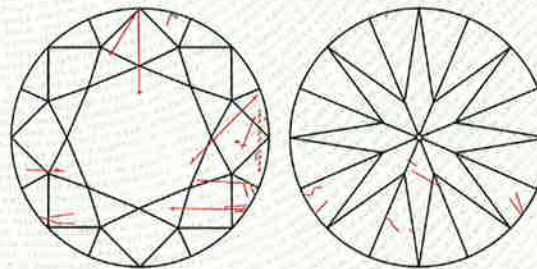

Comments: Additional twinning wisps, additional clouds, pinpoints and surface graining are not shown.

CLARITY CHARACTERISTICS

KEY TO SYMBOLS*

- Feather
- Needle
- Twinning Wisp
- Indented Natural
- Cloud
- Crystal

* Red symbols denote internal characteristics (inclusions). Green or black symbols denote external characteristics (blemishes). Diagram is an approximate representation of the diamond, and symbols shown indicate type, position, and approximate size of clarity characteristics. All clarity characteristics may not be shown. Details of finish are not shown.
